

Activonol-EHG

Multifunctional Ingredient for Cosmetics

- Very active deodorant additive
- Boosting anti-microbial efficacy
- Excellent Compatibility

Abstract

Multifunctional Ingredient for Cosmetics

Activonol EHG is a multifunctional ingredient for cosmetics.

Activonol EHG is a very effective deodorant active (odor causing bacteria).

Activonol EHG has anti-microbial boosting effect combined with traditional preservatives and other multifunctional ingredients.

Activonol EHG also gives the moisturizing effect and medium spreading emollient feeling.

Activonol EHG is an alternative ingredient for paraben and triclosan free formulations.

Technical Information

INCI Name	Ethylhexyl glycerin
CAS No.	70445-33-9
Appearance	Transparent liquid
Aspect	Characteristic Odor
Solubility	Slightly water soluble, Soluble in glycols
Recommended dosage	0.03 ~ 1.0 %

Skin Safety

Human Skin Patch Test

: Activonol-EHG under the single application patch test for 48 hrs to female adults subjects can be considered no irritant.

Test Sample	Concentration	Result
Activonol-EHG	1.0 % in 30 % 1,3-BG	No irritant
